

Green Vendor Resource List

The Milwaukee Metropolitan Sewerage District has generated a Green Vendor Resource List to further promote the use of Green Infrastructure (GI), and to serve as a resource for participants in District GI funding programs and others with an interest in GI. The District makes no guarantee as to professional standing or quality of work. As with any contract work, check references, license and bond status, and professional certifications where applicable. The list will be updated periodically.

Contact Information	Scale of Work	Specialties	GI Types
